

ANAESTHESIA/SURGERY/POST OPERATIVE TREATMENT CONSENT FORM

Date: _____

Client Name: _____ Address: _____ Cell phone (today): _____

Patient name: _____ Species: _____ Breed: _____ Age: _____ Weight _____

Requested surgery / procedure(s):

A. In-patient questionnaire

1. Time last food was given: _____ Last water given: _____

2. Date of last vaccine: DHLPP: _____ FVRCP: _____

Rabies: _____ Bordetella: _____

(Pets that are overdue for vaccines are required to be made current during time of hospitalization.) To lessen risk of surgery for your cat, the FELV/FIV Test is highly recommended for all cats not currently vaccinated for the Feline Leukaemia Virus.

3. Date of last Faecal Exam: _____

4. Date of last Heartworm Test: _____

5. Does your pet show any signs of illness? _____

6. Is your pet taking any medication? _____

To lessen risks of anaesthesia/surgical procedures all dogs over the age of 6 months must be current on heartworm testing and/or preventative medication.

7. List pet's past surgeries:

8. Has your pet had any previous reactions to anaesthesia? Yes No

9. List any behavioural concerns (biting, timidness, needing special handling, etc.)

10. List any belongings left with pet

The clinic will not be responsible for any lost items.

B. Pre Anaesthetic physical exam, blood work, and anaesthetic monitoring and recovery

1. Pre anaesthetic physical exam:

HR: _____ RR _____ PR _____ TEMP: _____ MM _____

2. Pre Anaesthetic Blood Work

Pre-anaesthetic blood work checks the internal organs and blood count and is a vital part of safe anaesthesia. Help us provide the best level of care for your pet by choosing to perform blood work prior to anaesthesia or sedation.

PLEASE CHECK ONE

Haemogram /Complete Blood Count (CBC) (Ksh.1, 000)

- Basic internal organ screen (liver, kidneys) with full red and white blood cell count
- For generally healthy, younger patients

Full Biochemistry (Ksh.1, 500)

- Full blood work on all major organs, electrolytes, and full red and white blood cell count
- Indicated for longer anaesthetic procedures, sick patients, and pets over 7 years old.
- ***Note – your vet may require this blood work for some procedures and situations**

I decline blood work and understand there are increased risks during anaesthesia

1. Intravenous (IV) Fluid Support during Anaesthesia

Administration of IV fluids during anaesthesia helps maintain blood flow to the organs and keeps blood pressure normal. IV fluid support greatly increases the safety of anaesthesia.

PLEASE CHECK ONE

Administration of IV fluids during anaesthesia (covers fluids and IV pump use for short procedures)

Ksh.500

**Please note some procedures and conditions will need additional IV fluid support for longer periods of time which will be at additional cost. Your pet's doctor may require IV fluids for anaesthesia.*

I decline IV fluid support and understand there are increased risks during anaesthesia

C. Additional Services While Under Anaesthesia

Nail trims and files - **KSh.500**

Microchip - **Ksh.4700**

Express anal glands - **Ksh.500**

Ear clean if needed - **Ksh.1500**

Teeth Cleaning - **Ksh.5, 000**

Heartworm test - **Ksh. 1000**

Feline Leukaemia/FIV Test - **Ksh. 1000**

Apply topical flea treatment - **Ksh. 1000**

D. Post-Operative care and Pain Medication

This is vital for a more comfortable post-operative recovery.

Take home pain medication (enough for 3-4 days) **Ksh.800**

**Your pet may need a longer course of pain medication for certain procedures which may be an additional cost*

Elizabethan Collar - **Ksh.800**

E. Authorization

Please sign after each statement below:

I verify I am the owner (or Authorized agent for the owner) of the above named pet and authorize the above procedure to be performed. I authorize the use of anaesthesia and other medication as deemed necessary by the veterinarian and understand that Aniworld Veterinary Clinic personnel will be employed in the procedure(s) as directed by the veterinarian.

I understand that unforeseen conditions may be revealed during the procedures that may require more extensive or different treatments. I understand that all reasonable efforts will be made to contact me to authorize any additional treatments. However, if these efforts are unsuccessful, I authorize the performance of any procedures or treatments that are deemed immediately necessary for the health and wellbeing of my pet in the professional opinion of the attending veterinarian. _____

I understand that I assume financial responsibility for all services rendered. _____

The veterinarian has described the procedures identified in the consent form and has explained to my satisfaction the purpose for performing them and the risks involved with them.

I realize that there can be no guarantee as to the outcome of any procedures. _____

I have been advised as to the nature of this procedure to be performed and the risks involved. I understand also that there is always a risk associated with any anaesthesia episode, even in apparently healthy animals and I have discussed my concerns with the veterinarian. My signature on this consent form indicates that any questions have been answered to my satisfaction. While Aniworld Veterinary Clinic provides the highest quality of anaesthesia monitoring and surgical services, I understand that there are rare complications associated with any anaesthetic or surgical procedure. In particular, I have been advised that there is an extremely small risk of death, complications, or side effects every time an anaesthetic is used and that I have been advised of the possibility. I acknowledge these risks and understand that the veterinarians and clinic staff will try to minimize such risks. I will not hold Aniworld Veterinary Clinic, the veterinarians, or any staff member liable for any complications that may arise. _____

I have read and understood this authorization.
